

S&J Luxury Website Development Task

Reference: <https://www.sjluxury.in/>

Build a **premium, modern e-commerce website** for S&J Luxury, selling:

- Ladies Bags
- Cosmetics
- Sunglasses
- Watches
- Perfumes

Feel free to use **dummy products, images, prices and content** for now.

Pages

Home • Premium hero section

- Shop Now CTA
- Category cards
- Featured Products
- New Arrivals
- Promotional banner
- Short About section
- Newsletter + Footer

Category / Shop Pages • Product grid

- Filters and sorting
- Wishlist
- Add to Cart

Product Detail • Image gallery

- Product information
- Price and discount
- Add to Cart / Buy Now
- Wishlist
- Related products

Cart & Checkout • Cart summary

- Quantity controls
- Customer and shipping details
- Payment placeholder
- Place Order

Design Direction

The overall feel should be:

Luxury • Minimal • Elegant • Fashion Forward • Editorial

Focus on strong typography, premium imagery, whitespace, clean layouts, subtle animations and polished interactions. Avoid making it look like a generic e-commerce template.

Requirements

- Fully responsive across Desktop, Tablet and Mobile
- Reusable and scalable components
- Easy to replace dummy products with real content
- Functional navigation and interactions
- Good performance and basic SEO structure

Use your own design and development judgment wherever details aren't specified. The goal is to make it feel like a real premium luxury brand website, even with dummy content for now.
